Keywords: software testing, social sciences, learning, critical thinking

HIGHLIGHTS

- ◆ 6 years experience in software testing & software development, 4 years experience in social research
- ◆ Currently working as a Test Manager and Learning Leader within testing competence at CGI
- ◆ Interested in finding smart solutions for all kinds of problems and making things fun.
- ◆ Constant learner. Developing social and technical skills and helping others with the same.
- ◆ Testing is my hobby. I am a fan of the Context driven testing approach
- ◆ Approaching software testing as a discipline in which technical skills intersect with methodology of social sciences
- ◆ Helping CGI to hire testers. Helping new hires to become fully competent, socially conscious critical thinkers.
